West of Mississippi

The saving to North Dakota shippers in decreased freight rates on grain under the order of the Interstate Commerce Commission promulgated Saturday will be \$1,000,000 in a normal year, and would amount to about \$600,000 this year. V. E. Smart, traffic expert of the railroad commission, who returned to the city today, said.

Mr. Smart attended the meeting of railroad commissioners in Atlanta, Ga., and stopped in Washington to confer with the Interstate Commerce officials on rate matters and there obtained an official copy of the order.

The order provides, he said, that on or before November 20 the carriers must file new tariffs upon grain, hay and grain products, reducing them by one-half of the increase of 35 per cent made on August 26, 1920, except that the reduction is 10 per cent less on wheat. Mr. Smart said that would be tantamount to an actual reduction on the present rate of about 10 per cent on wheat and amount to 11 per cent on other grain.

The total saving in a normal year in North Dakota would be about \$1,000,000, he said.

The case which resulted in the decreased rate was instituted by the railroad commissions of the west. It is estimated that the decrease in rates in the entire western territory, west of the Mississippi river and including Illinois and Wisconsin amounts to \$40,000,000 annually.

INVITE OUTSIDE
MEN ON TRAINMajor A. B. Welch to be in
Charge of Legion Special
Car

Members of the American Legion from towns in western North Dakota who are going to the convention at Kansas City are invited to join the Mandan-Bismarck bunch which leaves here October 29.

P. G. Harrington, in charge of arrangements here for the special tour, said that a large car had been ordered and there will be a few extra places for men outside of Mandan and Bismarck. The car will be spotted in Mandan and will leave on November 4, October 28.

It will be attached to a Northwest Legionaire special in St. Paul, a train which will carry two bands.

Major A. B. Welch, of Mandan, will be in charge of the train.

Local men who will make the trip are asked to see Mr. Harrington by noon tomorrow.

SEEK MURDERER
OF N. Y. GIRLDismembered Body is Found in
Pond; Hunt a Second Man

New York, Oct. 25.—A "second man" today entered the mystery surrounding the murder of the young woman whose dismembered body was found last Saturday in a pond at Long Island city.

Detectives working on the case advanced the theory that two men took part in dismembering the body when the officers learned that clothes found wrapped about the mutilated form were of different size and bore different laundry marks.

This theory was strengthened when a package containing a woman's blue serge suit now believed to have been worn by the victim was turned over to them. The discovery of the package by a young woman who said she had seen two men throw it from an automobile near her home Saturday afternoon. The clothing was of a size that would have fitted the slain woman and efforts are being made to trace it.

The Nonpartisan program, the governor said, is based upon the advice of Henry George, single tax advocate, who said, "Don't confiscate the land, but raise the taxes until the lands are confiscated."

This explains why land taxes have been steadily increased in North Dakota since the Nonpartisan league came into power. Governor Preus declared, and it explains why the state tax levy for 1922 has been increased 105 per cent.

The governor contrasted the North Dakota plan of state industrialism with the Minnesota plan of co-operative enterprise. The former, he said, has brought disaster in North Dakota while the latter had been an unqualified success. While the managers and employees of state-owned industries in North Dakota were trying to see how much money they could get for the least amount of effort, the co-operatives in Minnesota were working hard for the success of their enterprises and getting big returns for their labors.

Stand Crushes Effort to Regain Throne

Budapest, Oct. 26.—(By Associated Press.)—Former Emperor Charles whose attempt to reestablish himself upon the Magyar throne met with dismal failure yesterday. He attempted to commit suicide by shooting, following his arrest near Komar. Former Empress Vita saw him preparing to shoot himself and prevented him from carrying out his intention.

The former emperor and empress are now prisoners at Tatta Tovaros and Thomas Beaumont Hohler, British high commissioner, in Hungary is hurrying there with representatives of other nations to insure safety of the prisoner.

Orders sent to their rebellious troops supporting Charles by Admiral Horthy, the Hungarian regent, spelled the doom of Charles' attempt to regain at least a part of his former empire. The regent reminded the soldiers of their oath of allegiance to him and demanded their unconditional obedience, adding that success of the royalist undertaking would mean the ruin of the country.

The firm stand of Admiral Horthy had its effect and the royalist forces scattered seeming to vanish into thin air.

Latest advices from the section of the country around Komar indicated the government troops continued their pursuit of the royalists and that the Carlist premier, Mr. Rakovsky, and Count Andrássy, were among the supporters of the former monarch captured by the loyal troops.

Switzerland Objects. Charles' plan to return to the Hungarian throne having failed the Hungarian government probably will await action by the allied powers regarding his future place of residence. It is known that Switzerland will not again have him refuse and it is possible that he will be removed to some place where he will be a virtual prisoner of the allied powers.

Paris, Oct. 25.—(By the Associated Press.)—The allied policy for the future treatment of Ex-Empress Charles of Austria-Hungary has been decided, only as to one point—that he must be put in a position where he will be unable again to disturb the tranquility of Europe. It was declared in French official circles today. His internment in Hungary is accepted by the allies only as a temporary necessity.

BEER IS GIVEN
FULL STATUS AS
MEDICINE TODAYSecretary of Treasury Mellon
Promulgates Rules of Former
Attorney-general

MAY USE PRESCRIPTIONS

Wines and Spirituous Liquors
Also Are Covered in New
Regulations Announced

Washington, Oct. 26.—Beer as a medicine enjoyed a full legal status today through the unexpected action of the treasury department in promulgating regulations permitting its use for that purpose.

The regulations were issued in accordance with an opinion submitted by former Attorney-General Palmer last March 3, holding the medicinal use to be legal under the prohibition laws and after being withheld since then in anticipation of early action by congress on the pending anti-beer measure.

In making known the promulgation Secretary Mellon declared the department was unable to withhold the regulations longer "in view of the plain legal right of the parties concerned."

Limit Is Fixed. Rules covering comprehensively the use of wine and spirituous liquors as medicines as well as beer fixed a limit of 2 1/2 gallons, the equivalent of a case, on the amount of beer that may be prescribed to the same person at one time. No arbitrary limit is placed on the number of prescriptions one person may obtain within a given period.

Except that the amount for a single prescription is limited to two quarts the wine regulations are the same while spirituous liquors are limited to one pint within any ten-day period.

SEN. POWER IN
VISIT TO CITY

Head of Bismarck Bank Stops
Here on Trip

Senator T. C. Power, of Montana, president of the Bismarck Bank, spent yesterday in Bismarck, returning from a business trip in the east.

Senator Power, who had not been in Bismarck for two or three years, declared that he saw a remarkable improvement. He was especially interested in viewing with Capt. I. P. Baker the progress on the Bismarck-Mandan vehicular bridge.

The prosperity of the Northwestern with the adjustment of present general business conditions.

OIL LEASES
ARE RECORDED

St. Yates, N. D., Oct. 25.—Six oil leases of Sioux county land, the first ever to be recorded, were recorded Friday in the office of the register of deeds. The company securing these leases, the Lemmon Oil Basin company, has recently begun work on the second well in the Lemmon Basin. This is located in Adams county just one township west of Sioux county.

Election Returns To
Be Given At Tribune
Corner 4th & Thayer

Through the courtesy of the Lahr Motor Sales company, Eltinge theater management and E. H. L. Vesperman, manager of the city auditorium, The Tribune will be able to give the people of Bismarck and territory tributary to it election returns available Friday evening.

The daily papers of the state have formed a press association to gather these returns. Details at Bismarck, Fargo, Grand Forks, Devils Lake, Minot and Mandan will be on a special leased wire until all the returns are in. North Dakota has been divided into zones and each paper will collect returns from its particular section.

The Lahr Motor Sales company has consented to allow The Tribune company to drop a screen over one of its big show windows on Thayer street. Mr. Vesperman has loaned the city's moving picture machine which is being installed under the direction of the Eltinge theater mechanics.

Bulletins will be thrown on the screen as soon as returns are available after 9 p. m. The show should be going good about 10 p. m. Owing to the short ballot, the cities should complete their returns early while the task of getting the rural vote will be slow because of the limited means of communication.

Those interested are invited to join The Tribune party at the Tribune corner, Fourth and Thayer streets. Patrons are asked to refrain from calling the office for election returns as much as is possible as the wires will be busy on long distance calls getting the returns. The Tribune, however, will try even by this method to accommodate its readers who may not be able to see the display of returns on the street screen.

Every precaution has been taken to guard against error in gathering returns which will come directly from official sources, untampered or untainted by political bias.

OFFICERS GO
BACK TO IOWA
WITHOUT SMITH

Two officers from the state prison at Ft. Madison, Iowa, left Bismarck on their return last night without the man they came to get.

He is Harry Smith, alias Charles Welling, held in the penitentiary here for safe-keeping, charged with the murder of a Kenmare policeman. He escaped from the Iowa prison last Christmas, where he was serving a life sentence for murder.

The attorney-general's office declined to permit him to be taken to Iowa. Smith had signed a waiver of extradition. He is held for further investigation.

MOTHER OF SIX TO CARE FOR CHILD

Jamestown, N. D., Oct. 25.—The big heart of Mrs. A. B. Young could not deny a home to a dimpled-cheek, ten days old baby boy left on her doorstep, although she now has six children of her own.

The baby was left on the Young doorstep at their home on North third avenue last night. There was no clue to the identity of the baby except a letter, written on the cover of a linen tablet, by a heart-broken mother. She wrote: Dear Lady:

"Please take this darling little baby and care for him a little while, or if you cannot, please find him a place to have a home. It almost breaks my heart to part with him but I have no money, hardly enough to eat and cannot

ZAP PLANS TO
HAVE ELECTRIC
LIGHTS IN TOWN

Zap, N. D., Oct. 25.—An enthusiastic mass meeting of the residents of Zap was held at the village hall to devise ways and means to hurry up the construction work on Zap's new electric light system. A big crowd attended and after conditions were outlined, the following were the results at the meeting:

Nineteen days of volunteer work pledged and \$70 in cash—said cash given by those unable or unwilling to work, making a total donation of 33 days' work, \$40 was paid in cash. Those who did not pay at the time are urged to see the village clerk at once. The work of cleaning out the holes has been started and the cash is needed now.

The sum of \$175 was pledged, \$25 in cash, as advance payment on future service, or more plainly, you get this amount back in electric juice. Fred Lang was chosen to solicit more volunteer workers.

L. L. Meads has charge of the present work, while later work will be let under bids.

on Over That, Stick

SENATE GROWS BITTER

Washington, Oct. 25.—Normal tax rates of four per cent on the first \$4,000 of income and eight per cent on all over that amount were approved today by the senate without a record vote. These are the rates now in force.

Without a record vote the senate approved the house proposal increasing from \$2,000 to \$2,500 the exemption to heads of families having net incomes of \$5,000 a year, or less.

The committee amendments proposing these rates which the Democrats thrice sought to amend yesterday without success was approved within a minute after the senate met. There was no discussion and the amendment which Senator Trammell, Democrat, Florida, promised yesterday would be offered, failed to materialize.

The senate returned to its now bitter fight over the tax revision bill with Republican leaders planning to force continuous sessions beginning tomorrow until the measure is passed and the Democrats generally opposed to what they regard as an unprecedented procedure.

If the proposed resolution calling for continuous sessions is presented tomorrow as promised by Senator Penrose of Pennsylvania in charge of the tax measure, a determined fight against it is expected from the minority side.

MAIL TRUCK IS
ROBBED IN N. Y.;
LOSS \$100,000

Bold Theft Occurs in Lower
Broadway in Truck Filled
With Wall Street Mail

New York, Oct. 25.—Three automobile bandits who held up a U. S. mail truck in lower Broadway late last night, escaping with four pouches of registered mail were being sought by police and postoffice inspectors.

Postal officers said they were unable to fix the value of the stolen mail, most of which had originated in the Wall Street district. One of the inspectors in the case, however, was reported to have told city detectives the pouch contained about \$100,000 in money.

Other estimates fixed the value of the haul around \$100,000.

Offers Reward.

Washington, Oct. 25.—Reward of \$5,000 to any person bringing in "dead or alive" anyone of the three automobile bandits who late last night held up a United States mail truck in New York was offered today by Postmaster General Hay.

Reports to the postoffice department were said to indicate that so far as is known the lot of the bandits did not exceed \$50,000.

ASKS EXPULSION
FROM CONGRESS
OF REP. BLANTON

Washington, Oct. 25.—Expulsion from the house of representatives of Thomas L. Blanton, Democrat, Texas, was called in a resolution introduced today by Representative Mundell, the Republican leader.

The ground for the move to expel was the publication in the congressional record as part of an extension of remarks by Blanton of an affidavit relating to a row at the government printing office which affidavit was characterized by some house members as obscene and unfit for transmission through the mails.

In Blanton's absence consideration of the resolution was deferred until Thursday.

There will be three services—10 A. M., 2:30 P. M. and 7:30 P. M.

Several prominent preachers have been invited to take part in the ceremonies. Among these are expected to be Rev. E. G. Lutz of Emery, S. D.; Rev. S. O. Jackson of Bismarck; Rev. Hennrich of Wishek and Rev. S. Grunz of Lehr.

The building committee, consisting of Jacob J. Rott and Gust Lachner, are having the building rushed to completion as rapidly as possible and contractor Wierschke and his crew are kept busy on the jump.

The new bell has arrived and been placed in position and has a splendid tone.

Barton Declares That All Parties
Concerned Are Expected to
Come to Chicago

GOVERNMENT PLAN

Washington, Oct. 25.—Final details of the government strike program designed to assure "transportation for people who travel and transportation of food and fuel were to be worked out today at a conference between Attorney-General Daugherty and five federal district attorneys from as many great railway centers.

As a result of the meeting which was continued from yesterday it was sent to the district attorneys which would serve to guide them if the threatened strike materialized.

Chicago, Oct. 25.—By the Associated Press.—The United States railroad labor board went into executive session this afternoon to consider the situation arising in the misunderstanding on the part of some of the Big Four Brotherhood leaders as to the meaning of the board's order summoning 1,400 general chairmen of the union to attend the hearing here tomorrow.

The board at its executive session completed plans for the hearing. After an opening statement by Chairman R. M. Barton explaining the reasons for the summons each side will be given an opportunity to present a statement with cross-examination to follow.

The board will sit as a semi-judicial body to determine whether its order of July 1 reducing wages is about to be violated by either side. The method of procedure will be much the same as in a contempt action, it was explained.

Cleveland, O., Oct. 25.—(By the Associated Press.)—W. S. Stone, president of the Brotherhood of Locomotive Engineers today corroborated reports that he had advised the general chairman of the engineers that reports that he had advised the gen- of the railroad labor board to appear before the board of Chicago tomorrow by making public telegrams ex- before the board at Chicago tomorrow and the "Big Five" executives.

Chairman Barton last night wired President Stone that the board's order included the general chairmen. The executive's reply sent this morning by the five executives advised Chairman Barton that "it is evident you have statements of the several ex- cutives confused" and explains that the general chairmen of the engineers have no authority to act on matters pertaining to settlement of the proposed strike, his authority being invested in the grand officers and executive committee only.

EXPECTS ALL PRESENT

Chicago, Oct. 25.—(By the Associated Press.)—Judge R. M. Barton, chairman of the United States Railroad Labor board, today telegraphed the heads of the four brotherhoods and the switchmen's union reiterating previous announcements that all general chairmen are expected to attend the hearing starting here tomorrow.

Judge Barton made public telegrams exchanged with the brotherhood leaders as given to the Associated Press at Cleveland and announced he had wired them as follows:

"All parties have been notified to appear. The board desires and expects their presence."

W. S. Carter, president of the Brotherhood of Locomotive Fireman and Engineers, telegraphed the board saying:

PLOWING WELL ADVANCED IN NORTH DAKOTA

A. J. Surratt Believes Last Fall's
Record Will Be Equalled
This Year

That North Dakota farmers are getting much farther plowing time and give promise to repeating last fall's record alone, this time is the information given out by A. J. Surratt, statistician for the Bureau of Markets and Crop Estimates.

In practically all sections of the state fall plowing was given an early start and it favorable weather continued until after the first week of November. Mr. Surratt believes most of the farmers will have finished plowing about all the acreage they intend to turn over.

There are of course certain sections of the state where some delay has been experienced. Among these are the places where unfavorable threshing weather kept the grain from being removed from the fields. However, during this weather, those farmers who did have some fields cleared took advantage of the chance to turn over many acres while not busy threshing.

Other instances where plowing has been somewhat delayed are in the potato growing districts. This crop being of considerable importance this year and the handling of it involving a great deal of work it has naturally prevented other activities such as plowing from being done.

However, in the matter of potatoes, it was Mr. Surratt's opinion that the nearness of a possible heavy frost will necessitate the cleaning up of all potato digging in time to permit practically all plowing to be finished if the complete freeze-up does not occur before the average date.

That early fall plowing is a matter of considerable importance is well known. It not only makes it possible for early planting in the following spring, but also is a means of destroying weeds and the eggs of hoppers and other pests.

LLOYD GEORGE HITS DE VALERA

London, Oct. 24.—(By the Associated Press.)—Prime Minister Lloyd George, answering a question in the House of Commons today regarding Eamon DeValera's message to Pope Benedict, said the publication of Mr. DeValera's message especially in the middle of the peace negotiations constituted a grave challenge.

The position of the government on the question involved in that telegram has been made abundantly clear. The member continued we do not propose to recede from it and the conference can not proceed on any other basis.

Johnny Wilson, middleweight boxing champion, is left-handed.

election elected Fred Irish of Fargo, N. D., as treasurer and that North Dakota must have a good reputation to elect two national treasurers of California inside of a week.

"Our main work is to work for a perpetual peace. We are also assisting in every possible way to alleviate the suffering of the wounded soldiers returned in our hospitals. The government is doing everything in its power for the ex-service wounded but what additional help we can lend is just that much service to our country."

In speaking of the Indians of North Dakota, which have the only Indian War Mothers chapter in the United States, Mrs. Jones said:

"These Indians are making good citizens and they sent a large quota of young men to the front during the world war."

The organization of War Mothers is rapidly spreading to the foreign countries and Mrs. Alice French, returned war mother, recently organized chapters in England, France, Belgium and Italy. Various chapters have been organized in Canada.

In telling of the entertainment features of the convention, Mrs. Jones said:

"The convention opened in Sacramento on Sept. 25 and was one triumphal parade through San Francisco until we reached Los Angeles. The manager of the St. Francis hotel, San Francisco entertained 100 War Mothers at luncheon in the 'Hand Carved' dining room and the city furnished cars for a three hour ride about San Francisco."

"A 'Gold Star' mother entertained us for three hours on her yacht, making a trip about San Francisco Bay and ten miles into the Pacific ocean. This entire entertainment was a tribute to the War Mothers election of Mrs. Rose Sargent, a prominent society and club woman to the office of recording secretary."

"On Tuesday, Oct. 4, a reception was given by the War Mothers chapters of Los Angeles, Long Beach and Pasadena at the Green hotel in Pasadena."

Mrs. Orr Names Assistants For War History Work

Mrs. Robert Orr, chairman of the Burleigh county committee for the North Dakota war history has named the people who will be in charge of the different branches of the work. The state War History committee appointed by the governor is Mrs. Charles F. Amidon of Fargo, Dr. Libby of Grand Forks and Dr. Gilmore of the city.

Forrest Skinner is named as vice chairman of the committee. He will have charge of the war records of soldiers, sailors, marines, nurses and chaplains. Mrs. N. O. Ramstad will have charge of the non-military records of welfare workers and Mrs. C. L. Young will have charge of the civilian records. Records of the county war organizations will be taken care of by Mrs. P. C. Remington and Mrs. F. L. Conklin will have charge of the letters, diaries, photos and trophies. Dr. Gilmore will have charge of the newspaper files and Mrs. F. K. Smith will take care of the publicity work.

An appeal is made to the patriotism of all the people in Burleigh county, to get the committee, so that none of the war history may be lost. Everyone is asked to give their support, so this work may be a success. Anyone who has anything to contribute to this work should communicate with Mrs. Robert Orr and she will refer it to the right committee.

State War Mother Elected Treasurer

The election of two North Dakotans, Mrs. Alb. E. Jones of Lisbon, N. D., and Fred Irish of Fargo, to the offices of treasurer of the National War Mothers and the American Bankers association respectively in California, within a week, is some honor for North Dakota. It is Mrs. Jones in an interview with a representative of the Los Angeles Evening Express in which she says: "That North Dakota must have a good reputation to be able to do it." Mrs. Jones is now in Los Angeles where she is spending some weeks before returning to North Dakota. She attended the national convention of the American War Mothers in Sacramento, opening Sept. 25 and at the close of the convention went to Los Angeles. Her interview follows:

"I was elected treasurer of the organization when it was founded in 1917 by Alice M. French of Indianapolis. You will recall that a few days ago the American Bankers asso-

THE RECALL—ITS PROGRAM.

North Dakota by January 1, 1922, will have had six elections in the short space of a little more than one year. If the I. V. A. initiated primary law is passed next Friday, the count will be seven elections. A state harassed by frequent elections and bitter political contentions is nearing the first state wide recall election held in the history of the Republic.

The Tribune believes that the election to be held next Friday is a monumental blunder and that whichever side wins, the long suffering taxpayer as usual will be the goat. He always foots the bill.

This is no eleventh hour conclusion. In common with many who desire the restoration of sane constitutional government in North Dakota untainted by any stultifying compromises with state socialism. The Tribune months ago fought vigorously a recall election as a matter of principle and most strenuously opposed another campaign upon a program of socialism such as is reflected by the I. V. A. initiated laws.

POSITION ASSAILED

That its position would be assailed, misunderstood, vilified and misrepresented was expected. Everyone is assailed these days by either of the contending factions who refuses to see black as white and white as black. The Tribune has sought to drive home relentlessly, the inconsistency of the I. V. A. program and to caution its readers against plunging into a fresh orgy of state socialism under a new leadership, whose remedy for the present ills that beset the state is merely a modified dose of the same thing.

Through three campaigns. The Tribune advocated candidates sponsored by the I. V. A., while steadfastly refusing to adopt the socialistic platforms upon which Steen, Doyle, and O'Connor sought the endorsement of the North Dakota electorate. All of these campaigns failed and the Tribune believes to a great degree because, the I. V. A. compromised on fundamentals. The Independents refused to fight socialism openly in all its fallacious forms and the farmers failing to distinguish honor or honesty in the deception defeated the candidates of the I. V. A.

POSITION CONSISTENT

The Tribune supported Doyle, Langer and O'Connor although completely out of sympathy with the program of state ownership which was one of the paramount issues of these three campaigns.

Following the O'Connor campaign, The Tribune through editorials let it be known in vigorous terms that it was through with any more candidates seeking votes on platforms that compromised on the issue of state socialism. Thousands of independents of the state became as disgusted with the "isms" of Theodore Nelson and his band of rainbow chasers as they had become aroused over the evil effects of the political theories of the nonpartisan league. County after county in convention assembled voted against a recall. The election to be held next Friday has been forced upon the people in spite of a majority of the Independents who have always been opposed to Townleyism in all its sinister aspects. The Devils Lake convention ignored public sentiment and the politicians had their way.

The Tribune stands upon its original decision today as firmly as it did last winter when every move of the I. V. A. managers was planned to precipitate a recall election whether the people would it or not.

The Tribune refused then and refuses now to be stamped into the support of a movement it believed was wrong last spring and still believes to be wrong. Because political manipulation has plunged the state into a fight none but the self interested politicians wanted there is no logical reason why The Tribune or any honest opponent of the recall should swallow the dose.

The advocates of the recall are not wasting much time defending their program upon the stump. In its various aspects, the I. V. A. program is a sorry piece of political expediency. There is no enthusiasm for these theories of the political doctrinaires—a veritable tissue of "isms" upon which the I. V. A. propose to restore economic stability in North Dakota. Anyone who studies the I. V. A. program is impressed with the fact that it was drawn for the sole purpose of building a platform upon which Job Brinton could stand and a majority as the other political renegades who have delivered North Dakota into the hands of the socialists. These men refused to repudiate their economic "isms," so a

platform somewhere consistent with their political pasts was imperative.

Because The Tribune has had the temerity to speak the truth, it has been assailed as viciously as if it were an issue in the recall campaign. The time has come to state its position clearly to its readers. Whatever the verdict next Friday, North Dakota must not lose any time thereafter in ending this continuous strife and in seeking to work out some deliverance from the political impasse the politicians have forced the state into.

SUPREME TEST

The supreme test of any political program is the calibre of the men back of it. Read the I. V. A. roster. Note the many men among the leaders and directors of policies who once were Townley henchmen—not blind followers in the ranks firmly believing in the principles promulgated and honestly working toward what they foolishly believed was an economic utopia, but designing politicians who climbed on the bandwagon to save their faces and hoist themselves into office. These hypocrites sat in the game when it was young in the practice of gambling with the fair name of North Dakota and more aggressive than now in exploiting the misguided farmers of a great state. These lily white advocates of clean government under I. V. A. auspices once rubbed elbows—and were glad to do so—with Townley, Brinton, Bowen, Thomason, Mills, Coates and the others who played for the biggest political stakes a North Dakota jack-pot ever held.

BETRAYED THE STATE THEN

These men betrayed the state then into the hands of registered socialists—men who boasted of their alliance with the forces of Carl Marx, Max Eastman, and the rest.

Call the I. V. A. roll, voters of North Dakota! You can hear them answering to their names—Gronna—Norton—Brinton—and so on down the list—all on the hustings for the recall, but once endorsed by Towley and kept in power through the "pull" of the League organization.

What a leadership!

What a sorry program!

A recall if you please, Mr. Voter, for the purpose of swapping one breed of socialists for another.

NO MANDATE OF PEOPLE

What mandate do these men and their associates hold from the people of North Dakota to plunge them into another bitter fight?

North Dakota has suffered five years under political turmoil and The Tribune has not changed its opinion of the fallacy of the league program—it never endorsed it as did Gronna and the rest who are now prating of the evils of Townleyism. No wise bird befools its own nest as the I. V. A. forces have by annexing all the out-law leaguers they could press into service, led by that arch political outlaw—Job Brinton.

When The Tribune supports another drive against socialism, it will not be under the leadership of a group of discarded socialists who once fattened at Townley's trough. It can see no relief from an organization that tolerates the very men that helped the state into its present mess.

The former leaguers who are the backbone of the I. V. A. speaking line of defense, once helped to wreck the credit of North Dakota. They now occupy seats of the mighty in I. V. A. circles. These destructionists cannot restore that credit or the good name of North Dakota. Better far keep such of these men who have been relegated, in the political oblivion they now occupy. Their past performances justify no greater reward.

WHY A RECALL ELECTION?

Had it been possible to initiate the I. V. A. program measures immediately there would have been no recall of state officials. In order to attempt the dissolution of the Republican and Democratic parties and impose a modified socialistic program upon the people of the state without delay, a recall election was necessary.

If only laws and constitutional amendments had been initiated or referred, they would have to be submitted at a general election. A special election to get their program measures before the people was possible only through a recall.

It is no secret that this recall is a certain raiser for the next senatorial campaign in North Dakota. The I. V. A. election laws are intended solely to put down a barrage for the next senatorial fight and to secure through group not party prestige a distribution of state and federal patronage to that end that the I. V. A. organization will supplant both Republican and Democratic parties.

No true Republican or Democrat can support such a measure to break down party lines completely.

A POLITICAL BLUNDER

When the I. V. A. organization, controlled by many former disgruntled leaguers, forced their recall against the public opinion of the state, a political blunder was perpetrated which even though it does not end in defeat will have far reaching results of no good to North Dakota.

There are many in the rank and file of the I. V. A. who have entered the fight with faint hearts. They did not want the recall. Most of them are disgusted with the impossible program, but they are fighting on because they feel that it is a choice between two evils. With these men who are honest in their conviction, The Tribune has no quarrel. "We must use the I. V. A. to clean up the league," says many politicians, "and then we have got to clean up the I. V. A. socialists."

The Tribune refused to enter the campaign upon such a basis. There is some satisfaction in being able to warn the voters of the dangers that lurk in the I. V. A. program. As to candidates. The Tribune has no recommendations to make. It cannot by the very nature of things because it cannot endorse the millstone of a program the I. V. A. has hung around the necks of Nestos, Kitchen and Johnson and because of the band of political highbinders behind these men who are calling the voters to repentance. It declines to vouch for any group of men whose program cannot restore economic stability. Probably the program will be forgotten when once the office is obtained, but the I. V. A. endorsement of such ex-leaguers as Gronna, Brinton, Norton and the rest is a danger signal well worth a thought.

MAY BRING TEMPORARY RELIEF
An I. V. A. victory may bring some temporary relief. It would be heralded to the world as a defeat of Townleyism, but the hollow mockery will be apparent when once the I. V. A. program if passed gets into operation. A hungry horde will follow in the wake of the victorious candidates led by Gronna, Brinton and the rest and unless curbed will fasten upon the taxpayers as they did when in league with Townley, a program that will absorb the tax pay-

ADVENTURE OF THE TWINS

By Olive Barton Roberts

The cuttlefish did as he was told and squirted a lot of black ink into the bottle that Nick was holding. "There, now," said Cap'n Penny winkle when it was full. "That ought to be enough to save three or four whales, although we are only going to save one."

"Whales!" cried out Mr. Cuttlefish in alarm. "Did you say whales, Cap'n Pennywinkle?"

"Yes," answered the fairman. "The sharks are planning to attack a nice little fellow and I want the twins to save him. Have you any objection?"

"I don't know whether I have or not," replied the cuttle fish. "It depends upon the whale."

"How so?"

"Cuttlefish shivered. "Why, if its sperm whale, the big one with sharp teeth, he's just waiting for a chance to make a dinner off me. Of course, if it's Mr. Whalebone Whale, I don't mind, for he hasn't any teeth, and his throat is too small to swallow so much as a herring, living on the tiniest sorts of things. But those others! Ugh! They could swallow a church, although they never do, preferring cuttlefish."

Before the Cap'n could answer, Mr. Cuttlefish swam disgustedly away. As the fairman said, the Wigglefin people were a queer lot anyway. "I was always a case of dog eat dog, or fish eat fish (which was the same thing), and he was going to save Mr. Whale if he could."

Nick held up his bottle of ink curiously. "Will you please tell us what to do with this?" he asked.

"It's very simple," answered the fairman. "Cuttlefish ink is the blackest in the world. When the sharks come too near to Mr. Whale, take the cork out of your bottle and pour the ink into the sea."

PEOPLES' FORUM

The following letter to the Tribune from J. W. Foley, was presented by Mrs. Mary McLean and is reprinted for the perusal of many of the residents of Bismarck:

WHAT THE SCRAP BOOK TELLS
Editor Tribune: The following from an old scrap book may be of interest to some of the old residents. The articles are from The Tribune of almost 30 years ago.

The names and incidents bring to mind recollections of many dear old friends of the long ago; a time when many of us were in the prime of life and looked forward with hope to the future. Now when life's span is nearly spent for many of us it's a pleasure to look back to the old bright days of the past. These articles will serve to show, too, what a fleeting population we have in our western cities. Of those who were boys and girls then and who have left their early homes; where they are now; what has been their lives? Of the older ones, some have passed the great divide, which we too will soon pass. Will we meet our old friends there? Let us hope the message of The Christ is true.

"The entertainment at the Athenaeum Tuesday evening was intensely interesting. Those participating were as follows: Misses Grace Wilson, Lillie McCullough, Birdie McCullough, Maggie Garrette, Ida Garrette, Annie Austin, Edna Falconer, Hattie Bly, Daisy Stewart, Annie Whalen, Bessie Goff, Kittle Call, Bessie Austin, Lester Payne, Rachel Foley, Edith Clark, Mattie Waller, Master Carl Weaver, Juddie Watson, Charlie Flannery, Charles Austin, Barry Payne, Willie Bennett, Wells Launsherry, Willie McLean, Lionel Kenneth Ridpath and Harry Call.

"At the knock out drill of the Governor's Guard, the prize medal was awarded to George McNider, and was presented to him by the governor in fitting terms."

Here we have the program of the

ers money as fast as "isms" we now have. Why flee the evils we know for those we wot not of. Why give up the itch and the hair shirt for a rash. The real job must be done next June under Republican auspices. Four campaigns directed by a mugwump, fusion organization failed because the structure of the organization is wrong and the program socialistic. Whether the recall will fail or win no man can safely predict now. It is idle to deal in pre-election prophecy. The Tribune is not going to waste any effort on predictions. Maybe the cocksureness of the I. V. A. publicity agent is warranted and again the league confidence might be equally justifiable—but the fact remains that the recall election is the most unnecessary conflict a state ever engaged in.

Now is the time for all good Republicans to come to the aid of their party and snow under the pernicious program measures of the I. V. A.

Action taken upon candidates is a decision that must be left to the individual conscience, to be determined in the light of the motives and political exigencies that forced this recall election.

thoughtful, fearful man must see the inevitable truth. He placed his puppets in the heart of the turmoil, faced them with tragedies and followed in the trail of the Four Horsemen; set about to test their courage as only a master can test the inherent nature of man, and when the moment of "his" came, it found these representative mortals quite ready to accept the several fates laid out for them. Metro's screen version of "The Four Horsemen" coming to the Eltinge theater for six days next Monday is a production that equals, if it doesn't surpass, the Ibanez back. Its characters are vivid, varied and exact, its settings marvels of achievement, and the production as a whole well worthy of the author of "The Four Horsemen of the Apocalypse."

MANDAN NOTES

Association Has First Regular Meet

The first regular meeting of the newly organized Parent-Teachers association was held at the high school auditorium last evening. Short business meeting was held followed by the enrollment of new members. A short program was followed by a social hour. Refreshments were served at the close of the evening.

Mrs. H. L. Dahners and daughter of Mandan were shoppers in Bismarck Saturday.

Mr. and Mrs. A. M. Renden have returned from a two weeks visit at the twin cities.

Mr. and Mrs. W. H. Machie announce the arrival of a baby daughter at the Deaconess hospital.

Mrs. W. J. Watson and daughter, Janey, have returned from a three weeks visit with relatives at Elgin.

Mr. and Mrs. William Peterson left yesterday for their home at Laurel, Mont., after a two weeks visit here.

County Agent George Ise has returned from his home at Brainerd, Minn., where he has visited since the National Dairy Show at the twin cities.

TRY THIS FOR INDIGESTION

Foley Cathartic Tablets are just the thing for constipation. Their action is wholesome and thoroughly cleansing without griping, nausea or inconvenience. They banish headache, biliousness, bloating, gas, bad breath, coated tongue and other symptoms of disordered digestion. Mrs. H. J. BANK OF NORTH DAKOTA

The Bank of North Dakota brings more visitors to Bismarck and has as large a payroll as any industry in the city, if not the largest.

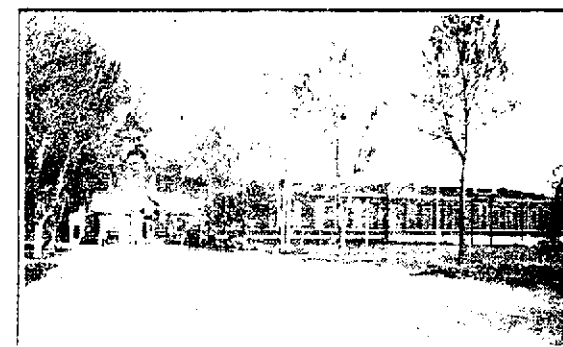

Do you wish to see this big asset lost to the city of Bismarck?

An I. V. A. victory means the closing of this institution which has saved the people of the state thousands of dollars in reduced interest rates, is the one state institution that has not cost the taxpayers a penny, is paying its own way, has brought 200 families to Bismarck, has a payroll of \$8,000.00 per month and daily brings visitors to the city who have business with the institution. They aim to replace it with a rural credits bank--but not at Bismarck. Merchants and other business men open your eyes to the true situation.

A state utility has been made of the bank at a time when bonds had been sold and financial relief was to be given the farmers in the drought stricken regions. It failed for its purpose because the motive was too plain even to mislead the enemies of the Bank. A bank at Bismarck is State Socialism, say the I. V. A. managers. At Grand Forks, a rural credit bank at Fargo and a mill at Drake is the "Farmers' Program," they declare.

DO YOU SENSE THE PLOT?

STATE PENITENTIARY

Site of the proposed State Utility Plant to consolidate the electric plants at the Penitentiary and State Capitol. Plans are almost ready to proceed under the bill passed at the recent session to provide a state electric and steam plant at the penitentiary. This plant would cut down overhead expense by making one plant do the work now done by two plants. It is proposed to furnish juice to run the street car, and for a white way along the scenic road to the bridge, to the state capitol, to Mandan and to the state penitentiary and to the Reform School and State Experimental Farm at Mandan.

Harry Goddard, I. V. A. manager of Burleigh county I. V. A. campaign, is a henchman of E. A. Hughes, owner of the Hughes Electric Light Plant. Goddard, in league with Cass county delegates, lobbied vigorously against the bill creating this plant last winter. The interests he represents are interests close to Hughes. Hughes is against this plant because it will furnish power to industries and for street lighting. It will demonstrate how cheaply power can be produced in the center of the lignite belt. Mr. Voter, can you wonder why Harry Goddard is in the fight? If the penitentiary there will be no consolidation of the power and no white way to Mandan. Harry Goddard and the Fargo bosses whom he is allied with will see that a state plant may furnish power to the towns within a radius of 150 miles.

BISMARCK-MANDAN BRIDGE

This structure links two prosperous sections of the state. Its speedy completion depends upon the retention of Frazier, Lemke and Hagan. To change officials now jeopardizes the entire project and hampers the completion of the greatest project for the prosperity of the entire state as well as the Missouri Slope ever initiated by any state administration. The Bridge project was carried to success by the present Republican state administration which the I. V. A. seek to recall. When the bridge project was before the legislature it had the bitter opposition of L. L. Twichell, I. V. A. leader and speaker of the last house. Do you want bridge work to go on without delay? Then vote "NO" nine times on all constitutional measures and initiated laws and for Frazier, Lemke and Hagan.

LIBERTY MEMORIAL BUILDING

This splendid Memorial to service men who fell on Flanders' Fields is nearing partial completion. Its total completion and equipment is delayed because the Cass county delegation headed by L. L. Twichell, speaker of the House slashed the appropriation introduced by the Burleigh County delegation several thousands. More than \$100,000 was cut from the appropriation by the I. V. A. majority in the House after the Senate had agreed to give the Historical Society enough to complete this handsome tribute to North Dakota soldiers. Twichell took the floor to fight this appropriation, as he did every measure that contemplated investment by the state at any Missouri Slope point.

BETTER BUSINESS IN 1921 THAN 1920 SAYS LAHR

Optimism of Head of Overland
Agency For Future
Explained

"Business is good," said W. E. Lahr, of the Lahr Motor Sales Company yesterday to a Tribune reporter and Mr. Lahr's optimism is only more evidence that we are fast getting back to normal.

Our business during the last half of September and to date is several hundred per cent better than it was during the same period in 1920, in fact, we have sold and delivered more cars during the last month than we delivered during May of this year which is usually the best month of the year for car sales. Of course, the new low prices on Overland and Willys-Knight cars have a great deal to do with our increased sales, for the public is beginning to realize what wonderful value these cars are. However, improved conditions generally have very much to do with it, and I feel confident that by spring business will be fast approaching normal.

Asked as to the types and models of cars being sold, Mr. Lahr stated that his company was selling more closed jobs than any other type. "People are fast realizing the advantages of the closed car," said Mr. Lahr. "After an owner has given a closed car you can't talk anything else to him; he not only gets more comfort out of his closed car but he also is able to use it the year around, and finds that a closed car during the winter months is a most satisfactory investment. The day of laying up a motor car for six months of the year is almost history, and the day of open models will soon be past. I venture to say that within five years 90 per cent of the cars manufactured will be closed jobs."

NEW ERA FOR MODERN SURGERY SAYS DR. MAYO

Philadelphia, Pa., Oct. 25.—Surgery is advancing into a new era opened by the World War, Dr. William J. Mayo of Rochester, Minn., told American College of Surgeons at the opening of its annual congress here tonight.

"The Great War brought to a close a period in scientific surgery, of which the late Dr. John B. Murphy of Chicago was the most brilliant exponent," said Dr. Mayo, in delivering the John B. Murphy oration on surgery.

This period was characterized by the advancement of the principles of surgery, investigation of the relation of micro-organisms to disease, and the development of clinical medicine on a pathologic basis.

"As a result of many causes, of which the profound influence of the Great War may be counted as one, we see, perhaps dimly, that surgery is taking on a new aspect.

"It is no longer possible for the individual surgeon in the face of the enormous amount of new and as yet unorganized knowledge, to cover the ground that Murphy covered."

NUXATED IRON Helps make rich, red blood and revitalize weak nerves

WEAK NERVES AND THIN BLOOD RUIN HEALTH OF THOUSANDS WITHOUT THEIR EVER SUSPECTING THE REAL CAUSE OF THEIR TROUBLE— IRON STARVATION

An enormous number of people who ought to be strong, vigorous and in the prime of life are constantly complaining of weak nerves, headaches, pains across the back, disturbed digestion, shortness of breath, palpitation of the heart, a general "run-down" condition, melancholy, bad memory, etc., all as a result of iron starvation of the blood.

There are 80,000,000,000,000 red blood corpuscles in your blood and each one must have iron. Without iron your blood also loses its power to change food into living cells and tissue, and nothing you eat does you the proper amount of good—you do not get the full strength out of it and as a consequence you become greatly weakened both in body and mind.

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the testicles or the stomach, because it is organic iron like the iron in your blood and like the iron in spinach, lentils, and apples and not metallic iron which people usually take. Your money will be refunded by the manufacturer if you do not obtain satisfactory results. Beware of substitutes. Look for the word "Nuxated" on every package and the letters N. I. on every tablet. Sold by all druggists.

YELLOWSTONE TRAIL MEETING WILL BE HELD

Reeder, N. D., Oct. 25.—Delegates from all cities and towns on the Yellowstone Trail in the state of North Dakota are called to meet in the eleventh annual state meeting of the Yellowstone Trail Association at Reeder, North Dakota, Monday November 7, 1921, at 5:30 o'clock A. M.

Cities and towns are entitled to delegates and votes in this meeting on a basis of one vote for each \$10.00 assessment paid to the Yellowstone Trail Association during the year 1921. The voting strength will be corrected to conform with this basis up to November 7, the date of holding the meeting.

Local arrangements for the North Dakota state meeting will be cared for by J. H. Spellman, Trailman, Reeder.

Every phase of the Yellowstone Trail business will be intelligently placed before this meeting. All action lies in the hands of the delegates themselves. Every act and policy of the Association is determined in the series of state meetings held each

ALL WRONG

The Mistake is Made by Many Bismarck Citizens

Look for the cause of backache. To be cured you must know the cause.

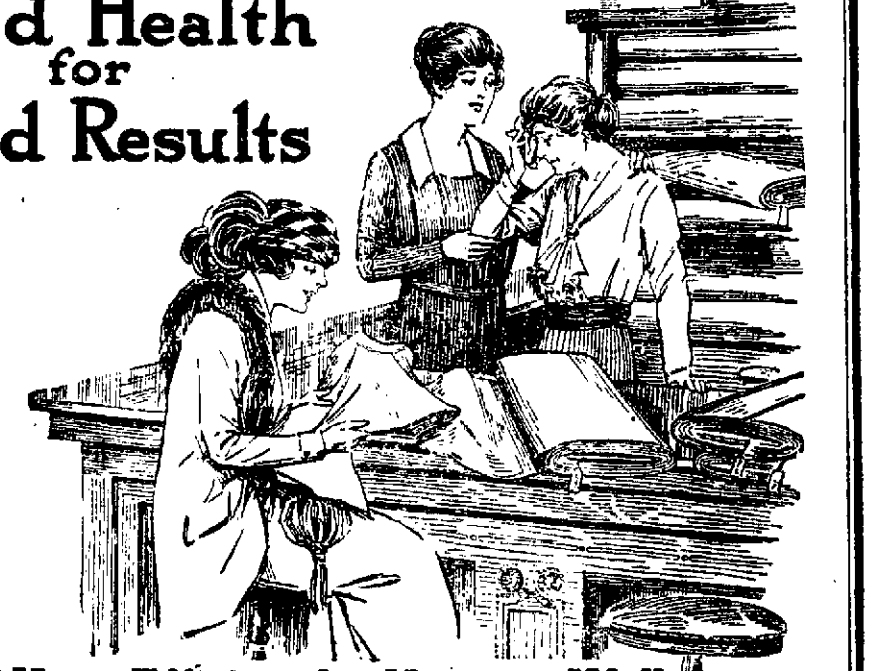

If it's weak kidneys you must set the kidneys working right. Ask your neighbor.

A Bismarck resident tells you how.

Mrs. Jack Kenyon, 417 Mandan Ave., says: "Several years ago I gave a public recommendation for Doan's Kidney Pills after the benefit one of my family had received. Since then I have had occasion to use them myself for an attack of kidney trouble. I had puffy eyes underneath my eyes and pains in my back. It was hard for me to do my housework at times. My kidneys acted irregularly, too. Three boxes of Doan's Kidney Pills cured me and I am glad to again recommend Doan's knowing them to be a remedy of wonderful merit. The cure they made for me has lasted several years."

Good Health for Good Results

Keep Efficient by Keeping Well

This Letter Will Tell You How

"I suffered terribly every month, and was always tired and nervous, and had indigestion, and often could not do a thing. I was this way about two years, and had to stay home with my mother. I tried several medicines, then I found a book of yours, and mamma told me to try the Compound. So I got a bottle of Lydia E. Pinkham's Vegetable Compound, and it certainly worked wonders with me. I have taken six bottles of it, and am still taking it when I feel the need of it. I have already recommended it to a number of working girls, who are taking it. I am working now, and stand up all day and feel fine. I am glad to say that Pinkham's medicine did a lot for me and for my mother, and we only wish we had taken it a long time before."

—Rose Schoeff, 4876 Annunciation St., New Orleans, La.

This letter is but one of a great number received every year from women, young and old, and from almost every walk of life. These letters testify to the merit of Lydia E. Pinkham's Vegetable Compound.

Miss Schoeff works for her living, but on account of sickness was obliged to stay at home for two years. During this period she suffered terribly at times. She tried several medicines without finding relief. Finally she tried Lydia E. Pinkham's Vegetable Compound, and in this letter tells what it did for her.

The Vegetable Compound contains no narcotics or harmful drugs, and can be taken in safety by any woman. Your livelihood may depend on your health. So try

LAND OWNERS ORGANIZE TO HOLD FOR OIL

Hettinger, N. D., Oct. 25.—A meeting was held at the court house in Hettinger, for the purpose of organizing all oil companies among the land owners in the vicinity of Hettinger. The object was to organize an equitable company, thus giving the land owners the benefit of any oil found on their lands should this prove to be in the oil belt.

A board of five directors, consisting of Tobie Koch, O. C. Berglund, John Monroe, H. T. Culver and Burr Spauld was elected. It was voted to incorporate with a capital stock of \$50,000.

Another meeting will be held Saturday, October 29 at 2 p. m. at the court house, to perfect the organization. At that time the Board of Directors will have drawn up Articles of Incorporation, secured the Charter and prepared the by-laws for adoption. The Board of directors elected the following officers: O. C. Berglund, president; Tobie Koch, vice-president; H. T. Culver, secretary and John Monroe, treasurer.

It was voted that the name of the company be the Equitable Oil and Gas Company. The company will secure leases from the land owners and for the consideration thereof will issue a certain number of shares of stock for each 40 acres leased.

TIMELY BEAUTY HINTS

Society women wash their own hair, not because it is a fad, but because they wish to obtain the greatest possible hair beauty and be sure they are not using anything harmful. They have found that in washing the hair it is never wise to use a make-nit, but is always advisable to use a preparation made for shampooing only. Many of our friends say they get the best results from a simple home made canthorix mixture. You can use this at a cost of about 3 cents a shampoo by getting some canthorix from your druggist and dissolving a teaspoonful in a cup of hot water. This makes enough shampoo liquid to apply to all the hair instead of just the top of the head, as with most preparations. Dandruff, excess oil and dirt are dissolved and entirely disappear in the rinsing water. Your hair will be so fluffy that it will look much heavier than it is. Its luster and softness will also delight you.

League Leaders Make Many False Charges

Attempts to Get Away from the Issues
Necessitates Volleys of Lies and Misrepresentation

Independents Answer Every Charge Squarely

It is to be regretted that it shall ever become necessary in a political campaign for one side to say of the other that it is lying for the purpose of fooling the people, but when it is a fact there is no other way out, if the voters are going to get a fair chance at the polls. The inner circle leaders of the Nonpartisan League now seem to think that they can stampede the voters into voting for their candidates and against the Independent laws by keeping up a continual barrage of vituperation against Wall Street and by lying about the contents of the proposed laws. They apparently hope that the voters will get so mad about something foreign to the issues in the election or as a result of untruths that are told them that they will go and vote against their own welfare without first finding out the truth for themselves by reading the laws. Here are some of the untruthful statements that are made by Frazier, Lemke, Hagan and their supporters and the Independent answer to each one:

The League leaders say:
"If these amendments and measures carry there will be no Bank of North Dakota."

The Independent Answer:
That's correct. By means of the Bank of North Dakota and affiliated banks more than two million dollars of public money has been used in political graft, the taxpayers will have to make this good by paying increased taxes for years to come. It is a useless middleman charging tolls service that cannot be handled thru the state treasurer's office. Thirteen states have to their sorrow experimented with a state bank. They not only abandoned it but charged their constitution afterwards so as to never again try it. Why not profit by the experience of others?

There will be a rural credits system patterned after one of the legitimate successful rural credits systems in the country. The issuance of rural credits bonds is provided for in the constitutional amendment and the rural credits act without any further legislation. In addition to this provision is made to take over the farm loan business of the Bank of North Dakota and all of the ten million dollar series now authorized by law. No other bank service is needed for this than can be furnished by the state treasurer's office.

The Mill and Elevator association will be embraced in the industrial commission as it is now. Provision is made for the use of \$2,500,000 if that much is needed for completing and putting into operation the Grand Fork mill. That is a half million dollars more than Frazier, Lemke and Hagan asked the bankers to raise for that purpose last winter.

There is no Home Building association now. Nobody knows what the houses that have been built cost. Those who thought they were joining a home building association, do not know where they are at now. The Independents propose to straighten out this mess and put everybody concerned on a business basis and then quit doing any more such haphazard business.

Not true. Nothing in the first election law prevents parties from nominating a full set of candidates for state office by a convention or other means prior to the primary election or from having the name of such candidates upon the primary election ballot. This law will make it impossible for Socialists and I. W. W.'s to ride into office as Republicans or Democrats by merely wearing a Republican or Democratic label.

The primary election for the nomination of federal officials and congressmen and the election of national party officials will be set in the dead of winter instead of in summer as is now the case.

"Congressional primary is wiped out by proposed measure."

The proposed depository law lowers the rate of interest on daily balances and time deposits.

It does not. The law provides that the same rate of interest shall be paid on public funds as is paid on funds deposited by private persons and that in no case shall it be less than 2 per cent on daily balances and 4 per cent on time deposits.

Aside from the Independent program proposed in this election there is no program unless it be the Lemke idea of "get your hands on all the cash you can no matter who it belongs to." The Independents are not only "hinting." They make those serious charges openly and earnestly against Frazier, Lemke and Hagan and many of those that they are responsible for and they dare not make denial because they know that the minute they do the Independents will prove every charge to be true. The proof will be in the form of admission made by Frazier, Lemke and Hagan and minor officials working under their orders.

The League leaders are not worrying about the mill and elevator business, the home building association, rural credits or welfare of the Republican and Democratic parties. They do not like the idea of being disconnected from the public treasuries or being prevented from promoting any more swindling schemes among the farmers. They tell the truth when they say "the Bank of North Dakota is the keystone . . ." They know that to order all the public funds assembled in one bank and then use their control over that bank for the purpose of parceling out public funds among political friends, is the softest snap that political grafters have ever struck anywhere in the United States.

The people are not going to be fooled, however. They are going to read with their own eyes what the proposed laws provide for. The official ballot title, which sets out in substance what each law provides for will be printed on the official ballot and on the Independent sample ballots. The full text of each law will be printed in the Publicity Pamphlet, which the Secretary of State will send to every voter if the county auditors have sent him a complete voters list of their respective counties. If you have not received one send postal card request to Thomas Hall, Secretary of State, Bismarck, North Dakota. Read the laws yourself and you will soon find who is telling the truth. Having found that, do your duty as a citizen. Go to the polls on October 28th and vote for HONESTY, ECONOMY, EFFICIENCY, OPEN BOOKS and RESTORED CREDIT. Vote "Yes" on the constitutional amendment and on each of the six initiated laws. Vote for Nestos, Johnson and Kitchen.
